

# Anti-Hero

Taylor Swift

**F**                    **C**                    **G**                    **Am**  
I have this thing where I get older but just never wiser  
**F**                    **C**                    **G**                    **Am**  
Midnights become my afternoons  
**F**                    **C**                    **G**                    **Am**  
When my depression works the graveyard shift all of the people  
**F**                    **C**                    **G**                    **Am**  
I've ghosted stand there in the room

**F**                    **C**                    **G**                    **Am**  
I should not be left to my own devices, They come with prices and vices  
**F**                    **C**                    **G**                    **Am**  
Vices, I end up in crisis (Tale as old as time)  
**F**                    **C**                    **G**                    **Am**  
I wake up screaming from dreaming one day I'll watch as you're  
**F**                    **C**                    **G**                    **Am**  
Leaving cause you got tired of my scheming (For the last time)

**F** **C** **G**                    **Am**  
It's me, hi, I'm the problem, it's me  
**F** **C** **G**                    **Am**  
At tea time, everybody agrees  
**F**                    **C**                    **G**                    **Am**  
I'll stare directly at the sun but never in the mirror  
**F**                    **C**                    **G**                    **Am**  
It must be exhausting always rooting for the anti-hero

**F**                    **C**                    **G**                    **Am**  
Sometimes I feel like everybody is a sexy baby  
**F**                    **C**                    **G**                    **Am**  
And I'm a monster on the hill  
**F**                    **C**                    **G**                    **Am**  
Too big to hang out, slowly lurching toward your favorite city  
**F**                    **C**                    **G**                    **Am**  
Pierced through the heart, but never killed

**F**                    **C**                    **G**    **Am**  
Did you hear my covert narcissism I disguise as  
**F**                    **C**                    **G**    **Am**  
Altruism like some kind of congressman (Tale as old as time)  
**F**                    **C**                    **G**                    **Am**
